
Linkitaly Evolution is our training and orientation program to support youth work.

This is a free program of training courses aimed at those who intend to improve their work performance before starting to work in Italy.

A “tailor-made” training program by the alternation between the study of our handouts and that of the dedicated playlist of our YOUTUBE CHANNEL with video contributions from Linkitaly Evolution teachers.

The program includes job placement in a selection of prestigious Italian hotel companies.

An opportunity to understand the working and relational dynamics in a transnational context different from that of origin, to develop one's identity, through knowledge and skills, including Italian linguistics.

WHY FOLLOW A LINKITALY EVOLUTION TRAINING COURSE?

To improve your work performance and be ready to work with us in hotels in Italy.
